Who Are We?

Ondokuz Mayıs University is a state university that has 47 years of experience. In an academic world with more than 31 thousand universities, we have consistently ranked in the various international ranking systems and ranked in Times Higher Education's World University Rankings, Impact Rankings, Young University Rankings, Emerging Economies University Rankings, and Asia University Rankings. We also work tirelessly for a sustainable and green future, which enabled us to place in the UI GreenMetric ranking. We have outstanding academic and administrative staff members and high-level physical facilities, which we use to establish and disseminate a quality culture.

Two characteristic features make our University unique: First, the balanced spread of all academic units, from dentistry to communication and from theology to engineering. The second is the understanding that adopts the principle of going over the areas open to improvement and turning them into opportunities. Our University has made a significant breakthrough since the 45th year of its establishment and is taking firm steps toward realizing its big goals before reaching its 50th year.

What is Our Academic Capacity?

With more than 2,500 academic staff, more than 4 thousand administrative staff, more than 55 thousand students, nearly 6 thousand of whom are international, and about 10 thousand graduates every year, members of Ondokuz Mayıs University continue to increase the number of publications, projects, patents and theses with each passing day.

NUMERICAL
DATA

What Are Our Qualifications?

Ondokuz Mayıs University embraces the quality culture and adopts the dissemination of this culture as a principle. Our University has become one of the 11 universities included in the YÖKAK Institutional Accreditation program and has achieved accreditation. In the program-based accreditation, it has managed to double the previous periods with tremendous progress between the years 2020-2022. Our University was also entitled to receive The Erasmus Charter for Higher Education (ECHE) 2021-2027 Quality Certificate, TSE-ISO-EN 9001 Quality Management System Certificate, and TSE-ISO 10002 Customer Satisfaction Management System Certificate as a result of its continual success in the process.

What Exchange Programs Do We Offer to Our Students?

Our University has signed exchange programs with various universities worldwide in 322 different programs within the scope of Erasmus. Exchange agreements with 40 international universities have been signed within the scope of the Mevlana Program and with a further 99 national universities under the Farabi Program. Our students actively benefit from these exchange programs and contribute to expanding their perspectives on the world with the experiences they have gained in the countries and cities they visit. Our University also has bilateral cooperation agreements which cover the whole world.

In What Ways Do We Support the Professional, Cultural and Social Atmosphere?

There are two types of association structures classified into professional and social categories within the body of our University. Professional associations are specific to faculties, while social associations are of a general nature. In this context, OMU, with a total of 51 associations from photography to agriculture and cycling to chess, offers the institutional background necessary to create the atmosphere that will enable our students' study spaces and cultural development in the social field with 93 communities. Our students have carried out many activities and organizations with the associations. Ondokuz Mayıs University perceives its students as primary stakeholders and always supports new association proposals that will enable their development.

What is Our Education Vision and Policy?

OMÜ-YOS

OMU, which is among the 50 most entrepreneurial and innovative universities in our country, has started quality-oriented revision studies in education as of 2020. It is envisaged that the revision works will be completed by the end of 2022 by systematizing the revision guideline associated with the YÖKAK quality criteria.

EDUCATION
REVISION

Our University is in the top five in our country regarding the number of international students. There are nearly 6,000 students from 120 different countries at our University. In this context, OMU, taking firm steps forward in terms of internationalization, has been successfully carrying out the University Entrance Exam for International Students (YÖS) since 2012. To date, exams have been held in 95 different exam centres in 52 countries with nine language options. Candidates who want to study in our country have been brought together with our University and other higher education institutions.

What Do We Do for R&D?

OMU has taken the first concrete step in the research and development policies put forward by the rectorate by gathering the R&D centres under one roof. OMU has crowned this progress with the accreditation of The Black Sea Advanced Technology Research and Application Center (KITAM) and implementation of the web-based automation system.

Our University has implemented the OMÜLingo online mobile language learning platform, which helps its students to learn languages. OMU has developed the TEKNOMÜ project to prepare for TEKNOFEST. In addition, OMU strengthened its steps by increasing the financial support that undergraduate students can use in their research projects.

Our success story; which progressed with the return of our academics with one gold, two silver and two bronze medals from ISIF2020 (International Inventions Fair) and one gold, two silver and four bronze medals from ISIF2021; has resulted in the success of our University in inventions and projects with the achievements of our entrepreneurs and students.

What Are the Areas We Contribute to the Society?

OKAF

REHABILITATION
TO ANIMALS
WITHOUT
OWNERS

SAMSUN
TEKNOPARK

Our University, which helps the plant find its commercial value through the Cannabis Research Institute, continues to pioneer the region with its studies. Our University also organized the Middle Black Sea Career Fair (OKAF) in a short time with great success and organized the first career fair of 2022 in Samsun. At OKAF, hosted by OMU, 202 companies, 10 thousand students and 15 thousand visitors were brought together in 75 career events.

In addition, OMU, which tries to make Samsun a brand in water buffalo products, provides the city's people with new recreational facilities and recreation areas and provides service to the entire region with the successful work of the medical faculty.

Besides, our University has signed 251 protocols and collaborations with external stakeholders in the last five years. These include a broad scope from the "Vocational Counseling Service Model for University Students: Job Club" realized with İŞKUR to the protocol signed with the Metropolitan Municipality for stray animals.

A Class Competent and Safe Library which won the Access in Space Award, Arabic Language Center (ADİM) which is the first independent centre, Women and Society Application and Research Center (OKTAM), Health Application and Research Center (SUVAM), Developmental Education Application and Research Center (OGEM) which won the Access in Space award, OMU Psychology Application and Research Center (PUAMER), Medicine and Dentistry Hospitals where tens of thousands of patients are treated every day, the selflessly working Animal Hospital which is a unit of the Faculty of Veterinary Medicine, and the OMU Foundation can be listed among the resources that our University fulfils its duties to the society.

With 83 companies, 453 personnel and 102 ongoing projects it hosts, TEKNOPARK and Technology Transfer Office (TTO), the bridge that enables cooperation between our University and industry, plays a vital role in fulfilling one of our most significant duties towards society.
